sabinprajapati7.com.np

Backend-Focused Full Stack Developer specializing in Django, Django REST Framework, PostgreSQL, Celery, and Stripe integration. Experienced in building scalable RESTful APIs, secure payment systems, automated workflows, and role-based dashboards. Skilled in React, Tailwind CSS, HTML, CSS, and Bootstrap, delivering responsive and high-performance full-stack web solutions. Passionate about creating efficient, real-world backend systems that drive measurable results.

EXPERIENCE

Django Developer (Internship)

May 2025 - Present

Mindrisers Institute of Technology

- Designed and implemented scalable RESTful APIs with Django REST Framework, handling authentication, role-based access, and Stripe payment processing.

- Optimized PostgreSQL database schemas and queries, improving backend performance.

- Automated tasks, notifications, and reminders using Celery & Celery Beat, reducing manual effort and enhancing reliability.

- Collaborated in Agile team environment with Git/GitHub, contributing to code reviews and workflow efficiency.

- Implemented API documentation and testing using Postman, improving clarity and onboarding efficiency.

- Participated in design and architecture discussions to optimize database and API performance.

PROJECTS

Everest Equity Club (Investment Club Platform – Backend) - Django REST Framework, PostgreSQL, JWT

- Built backend for user contributions, proposals, voting, and meetings.

- Developed role-based dashboards and automated notifications.

- **Github : github.com/sabinpr/Investment-Club**

RentMate (Rent & Utility Tracker) - Django, DRF, Celery, PostgreSQL

• Managed rent/utility payments with automated email/SMS reminders.

• Developed backend APIs and dashboards for tenants and landlords.

• **Github : github.com/sabinpr/rentmate**

E-Commerce Platform - Django REST Framework, PostgreSQL, Stripe API

• Engineered product catalog, cart, checkout, and Stripe payment integration.

• Implemented secure authentication and order management.

• **Github : github.com/sabinpr/shop-app**

Learning Management System (LMS) - Django REST Framework, PostgreSQL

• Managed courses, assessments, and student progress tracking.

• Uploaded PDF/Video content with automated notifications.

• Implemented search and filtering for courses.

• **Github : github.com/sabinpr/Learning-Management-System**

TRAINING/CERTIFICATION

Python With Django   2025

Mind Risers Consortium

Learned Django Concepts (Model, View, Templates) and Mastered API development, Token Authentication And PostgreSQL integration.

Credentials Link : www.mindrisers.com.np/certificate/validate/MR-81040-PD

SKILLS

• **Backend :** Django, Django REST Framework (DRF), Node.js, Express.js, Celery, JWT Authentication, Stripe API, API Development, Automated Workflows

• **Frontend:** React, Tailwind CSS, HTML, CSS, Bootstrap, JavaScript

• **Database :** PostgreSQL, MongoDB

• **Tools :** Git, GitHub, Postman, Figma

LANGUAGE

• English

• Nepali
